Buckwheat, as a green crop 281.

Butter and Milk, (see dairy.)

C

Cabbage, lice on 301; saving of 339.

Canada thistles 308.

Carrots, cultivation of 25.

Cattle, health of cows 16; training heifers 17; fattening 61; salt for 17; valuable cow 244; yoking oxen 333; breeding of 375; apples for cows 375; dry cows 375.

Cellars, to keep dry 8.

Celery, cultivation of 252.

Cheese, vat for 9; manufacture of 9.

Cider, keeping sweet 339.

Cisterns, to clean 138.

Clover, management of 14; when to sow 96; Alsike clover 113, 144; preparation of seed 118; on light soil 172; value of 227; when to turn in 268; Southern 365.

Corn, value, culture and use 1; house for 26; the weevil in 28; value of husks 65; thinning in the hill 74; selecting seed 81, 236; flat surface for 128; culture of Egyptian 160; to protect from cut worm 185; fall for manuring for 237; turnips among 237; for seed 325; stimulant for 363.
Cotton, the worm in 13; manure for 33; Zipporah seed 84; the Indian yield 201; British Importation 201; conflagration of 232; to kill caterpillar on 281; change of seeds 294; seed planter 346.

Country vs. town 131.

Crops, selecting and preserving 15; rotation of 115, 299; condition of 116, 225; preparation of ground for 142; effect of drought on 264; rotation of 264; in Georgia 274; in Maryland 289.

Crows, condemnation of 216.

Cucumbers, cultivation of 138.

Cultivation of yellow knolls 203.

D

Dairy, making butter in winter 28; cause of bitter milk 69; Monitor Milk Can 123; butter making 123, 188, 273; temperature for churning 123; poor cream 148; to milk cows 159; to butter makers 159; a steady flow of milk 159; rancid butter 189; unprofitable milk 188; packing butter in summer 209; storing 209; milk pans 209; churning 342; sulphite of soda for milk 342; why we don't have good butter 378; churning in winter 378; advice 378; holding up milk 378.

Dickson David, of Georgia, on farming 143; on the crops 145.

Dogs, facts in breeding 91; the dog nuisance 171; justice to 224.

Draining, its effect 14, 25, 58, 304, 331, 359; to fill and prevent gullies 42, 116; cement and concrete pipes 227; hints on 236; in quicksand 258; plow for 272; supply of water 322; drainage 353; preventing drouth 368.

F

Farming, industry 170; in Pennsylvania 241; in Harford county 292; in Maryland 323.

Farmers, hints for 92; talk among 185.

Farms, large and small discussed 11.

Farm crops, condition for October, 1867, 379.

Farm work for January 4; February 37; March 70; April 99; May 132; June 164; July 195; August 229; September 259; October 293; November 324; December 356.

Floriculture, management of house plants 25; pots for flowers 24; to keep flowers 42; the camelia 59; flowers and shrubs 88; to propagate dahlias 88; flowers 122; flower gardens 158; the Rose Aster 160; hints on 150; planting bulbs 315; soils for potting 345; layering shrubs 345.

Fruit, culture of in Maryland 3; blackberries and cranberries 57; garden fruit 58; Early Richmond Cherry 73; culture of in St. Mary's county 76; best varieties 85, 250; cherries 86; raspberries and blackberries 120; cranberries 120, 282; the currant and gooseberry 149; improved by thinning 150, 219.

Fruit, budding 151; mulching 151; grafts 151; summer pruning 151; prospects of crop 217; varieties for West Jersey 218; preserving 223; dry-

ing 224, 250; apricot and plum 248; gathering and packing 249; strawberries, blackberries and raspberries 278, 279, 280; among the peach growers 302; yellows in peach 305; cultivation of pears 341.

Fruit trees, management of 55; pruning 59; varieties in the Middle States 78, 109; cultivation of 86, 119; curculio trap 86; whitewash for 145; how to select 186; caterpillars on 187; apple tree borer 218, 219; pruning 219; pear blight 219; grafting 220; disease of 220.

G

Gardens, work for January 5; how to manage 6, 41, 105; work for February 38; March 72; farm gardens 77; work for April 102; landscape gardening 104; work for May 134; June 166; July 196; August 230; September 261; October 294; November 325; December 357.

Grain, rolling of 67; measuring by the granary 81.

Grapes, soils for 27; varieties to plant 59; culture of 67, 159, 251, 380; mildew 87; Iona variety 87; how to cut 89; growing of 89, 380; premium for 89; wild in Tennessee 216; wine making 251; wine from fox 275; soil for vineyards 315; culture of 345; preserving grafts 345; keeping in winter 345; grafting 380.

Gardening, landscape, 354.

Grasses, value of 8; testing seed 34; essay on 69; seedling 84; nut and sheep sorrel 84, 137; when to cut for horses and cows 169; mesquite variety 172; Hungarian 172; top dressing 261; cultivation of 290; timothy and clover 314; essay on orchard 335; origin of blue grass 335.

H

Hay, loss of weight in 8; for cows in summer 136. Hedges, 42, 59, 75; Osage Orange 93.

Hops, cultivation of 46, 203, 299, 360.

Horses, management of 17; Asteroid the racer 32; spavin in 64; heaves 64; to feel the pulse of 64; to prevent over-reaching 124; moisture in feet 125; galled backs 125; how to select 152; how a lady should ride 156; to prevent barking in stalls 175; Beecher on fast 176; inflamed mouths 176; scratches 177; carrots for 375.

Horticulture—manure for berries 54; dwarf pears 89; seasonable hints 373.

Hot-beds, formation of 206.

I

Ice Houses, construction of 244, 362.

Illustrations, cheese vat 9; Arlington Cantaloupe 24; buckeye mower 29; sub-soil plow 39; stump and rock puller 53, 309; the goldfinch 60; Routt's Southern Cornplanter 74; Prindell's Agricultural Cauldron and Steamer 80; sorgo evaporator and furnace 90; Langstroth's bee hive 93; varieties of sorgo 107; monitor milk can 123; apparatus for firing tobacco 136; new churn 160; Rose Aster 160; Harder's thrasher and cleaner 168; open ditcher 172; steel amalgam bells 174; Bullard's hay tedder 177; Dawson's patent churn 180; clothes wringer 192; hydraulic ram 246; drilled wheat 262; cotton planter 265; shovel plow 269; drain plow 272; Nicanor strawberry 278; dough kneader 282; well fixture 286; garden cultivator 340; Phifer's cultivator 344.

Implements, trial of reapers and mowers 114; stump puller 160, 247, 365; Stafford cultivator 148; horse powers 160; challenge washing machine 156;

stump pulling machine 164, 309; land measure 164; horse rake 166; thrasher and cleaner 168; open ditcher 172; Bullard's hay tedder 177; turbine water wheel 184; patent churn 189; potatoe planter 200; drills 244; hydraulic rams 246, 334; cotton planter 265; double shovel plow 269; drain plow 272; garden cultivator 340; Phifer's cultivator 344; seed planter 346; F. H. Smith's brick machine 363; cotton seed planter 377. Insects, to remove 131; potato bug 198; curculio 204; currant worm 220; weevil and other 234; on fruit 252; trapping grubs 293.

L

Labor, management of freedmen 51; labor and immigration 139; labor and agriculture 180; superintendent of 224; to emigrants 308.

Ladies' Department—Lost 30; the Yankee patent cow milker 30; rural simplicity 31; the runaway match 62; the two kisses 94; babies 126; the wife 127; defending the tilters 127; Beethoven's moonlight sonata 156; thrilling adventure 156; Brick's bumps 190; splendid description 190; ten acres too much 221; kissing 254; the laugh of women 254; teach the women to save 255; after long years 285; a young minister hugged against his will 285; Jephtha's vow 316; the wife 346; women and marriage 347; a young lady in a fix 348; Sunday morning 351; our gal 381.

Land, how to measure 228, 284; too much 367.

Lawns, management of 121, 272; preparation of 166; seed for 264.

Libraries, for farmers 34.

Lightning rods 272.

Lime, building kilns 83; as a manure 224; for renovating worn out land 231; as a purifier 297.

Linseed, statistics of 174.

Looms, Bromwell's patent 18.

M

Machinery, (see Implements.)

Manures, manufacture of 15; for cotton 33; from the atmosphere 39; essay on 44; to kill weeds 47; for tobacco land 81; commercial and farm yard compared 90; plaster value of 103; salt and Peruvian Guano 110; will they pay 113; green manuring 117, 129, 328, 358; value of dead horse for 143; experiments in 144; home made 145, 303; a powerful manure 154; to use fish guano 202, 217; fire fanged manure 205; seeds and weeds for 206; surface manuring 206; tan bark for 228; new variety 250; for plants 252; top dressing and plowing under 257, 268; value of phosphatic guano 270; peat and muck 271; salt for 289; use of 300; wheat chaff for 335; for Virginia lands 339; marl in Prince George's county, Md. 343; discoveries in Maryland 346; active manuring 355; manures 355; analysis of 367; from feed 367; varieties of 368.

Market Reports—January 32; February 64; March 96; April 128; May 160; June 192; July 224; August 256; September 287; October 318; November 352; December 384.

Maryland Farmer—New Year greeting 18; advertising in 18.

Meadows, top dressing for 35.

Melons, Arlington cantaloupe 24, 40.

Mulching, 372.

N

Nuts, planting 197.

O

Oats, sowing in February 6; cultivation of 111; Van Olinda Surprise 141.
 Obituary, Dr. H. Hinckley, Lewis M. Whitman 114; Hon. Isaac Newton 210; Col. Jno. P. Campbell 210; Wm. N. White 242.
 Onions, cultivation of 273.
 Orchards, cultivation of 22; best way of cultivating 151; management of peach 226; how to plant 364; planting apples 341; plowing up old 372.

P

Pastures, benefit of rolling, 20.
 Peanut, cultivation of 54; crop in North Carolina 268.
 Peas, sandy soils improved by 117; cultivation of ground peas 202; for stock 312; weevil in 368.
 Peat, as a fertilizer, 8.
 Pipes, how to use meerscham, 224.
 Plows, for hill-side, 42.
 Pear, butter from, 275.
 Pearl ash, effect of, 380.
 Poetry, dreams 8; content 14; the maid 15; morning 23; Jeanette's hair 30; can their be harm in kissing 31; snow 31; the willow's response 52; the girls 62; the lover's vigil 77; a tilt to be remembered 79; marriage 90; O! let me be your boy again 94; widow C., 118; a little gem 120; me too 126; marriage 126, 128; the Sabbath 138; the lock of hair 156; a sonnet 160; the flowers have gone to Heaven 160; a waterfall 160; kissing song 189; will he be home to-night 190; the girls 221; wives, true wives 221; God bless the boys 254; God bless the men 254; good night 255; life 256; the voice of the grass 265; Deity 265; tears, bitter tears 285; tender and true 286; liberty of the press 286; courting 286; old folks 303; long years ago 309; somebody'll come to-night 313; the marriage vow 316; the bells 318; little children 340; the way it came about 341; little plaid sun-bonnet 346; don't stay long 347; down by the lake 348; draw it mild 348; the tale of a purp; marriage 348; love 348; women 348.

Pomological Society, meeting of, 179.
 Potatoes, cultivation of sweet 43; effects of soil upon 103; varieties of 113; fine specimen of 121; to raise early 130; culture of cuzco 224; to prevent rot in 241; bug in 308; rot in 331; preserving sweet potatoes 332; preserving 338; culture of 364.
 Poultry, management and varieties of 27, 313; onions for 101, 337; feeding 122; quality of eggs 160; profitable keeping 160, 209; hints to breeders 192, 209; value of in orchards 236; disease among 241; improved house for 241; English game 273; sunflower seed for 292; treatment and food 291; disease of 337; cholera in 337, 375, 376; feeding 376; about setting 376.

Pumpkins, butter from, 275.

R

Rice, cultivation of upland, 197.
 Rye, cultivation of, 234.

S

Salt, as a manure, 206.
 Seasons, change of, 163.
 Seeds, change of 47; weights and measures of 52; for garden 83; quantity per acre 131; for the south 147; the best 336.
 Sheep, curing lamb skins 4; does raising pay 7; improved breeds of 17; breeding 17; American

merino 91; training of 125; grub in 125; foul hoofs 125; lice on 125; in June 153; shelter for 154; how to shear 175; dogs vs. sheep 175; farming 194; the dog nuisance 194; shearing in Talbot county 208; feed for 216; different breeds of 239; for mutton 311; cost of keeping 315.
 Smoke House, to construct, 335.

Soils, exhaustion of 266; muck and sandy 301; soil and subsoil compared 305; improvement of 325; sandy and gravelly 343; use of clover and peas for 330; thorough tillage 368.

Sorgho, convention of growers 29; cultivation of 58; State convention 82; best varieties 107; refining syrup 108; molasses from 160.

Spurry, value of, 263.

Stock, gestation of 20; treatment of 26, 61, 91; bloody murrain in 64; kidney worm 64; hollow horn 64; lice on 64; management of cows 124; selecting cattle 125; hints in breeding 141; Jersey cows 153; early hay for cows 160; fattening 176; value of blooded 207; results of fattening 258; sale of valuable 243; raising of 290; care of 311; effects of rusty straw on 312; sale of thorough-breds 339; importation of 343.

Strawberry, beds for 25; cultivation of 86; culture in New Jersey 149.

Summer regimen 192.

Swine, how to handle 16; lice on 29; Chester whites 192, 333; disease among 268; hints to breeders 283; trichina 312; breeding sows 334; large pigs 346; different breeds of 374; cholera 374.

T

Taxes, statement of 14.

Tobacco, interesting to planters of 48; firing and curing apparatus 136; when ripe 173; to destroy fly in 173; topping and suckering 173; statistics of crop 199; remedies for lice on plants 205; stripping, bulking and packing 238; essay on culture of 295, 326; cultivation in Louisiana 308.

Tomatoes, Tilden variety 51.

Trees, borer and worm in 23; snow and ice around 23; care of 25; watering and grafting 25; to protect from worms 48; growing seed leaf 81; manuring 87; straightening leaning 192; planting 219, 310; setting out 269; wash for 354; transplanting 357; distances for planting 372.
 Turnips, fly in, 226.

V

Vegetable raising 197.

Vote for Governor, 383.

W

Wheat, measuring 15; cockle in 39; smut in 138, 204; prospects of crop 147; new Spring 170; growing in Louisiana 182; midge 199; early and late sowing 199; new wheat 210; hints on culture of 234; pickling seed 235; drilling 262; seed 271; raising at the South 275; Boughton 292; cheat in 304; slack lime with 304; seedling 323; large crop of 335; yield in Georgia 346; harvest in England 370; trade of the world 370; harvest of 1867 throughout the world 371.

Wine, (see grapes.)

Wool, samples of 21; cultivation of 135; statistics of 281.

Y

Youths' Department—Aspirations of youth 96.

RECIPES---MISCELLANEOUS.

These Trees are one year old from the bud, and are of uncommon large size. The Buds were selected from all the principal orchards in the months of August and September, when the trees were in bearing, and may be relied on as the kinds specified, and are now ready for transplanting. Having been engaged in raising Peach Trees alone and the cultivation of peaches for a number of years, we feel confident that we have selected from all parts of the country the very best kinds, and will warrant all trees sold by us to be as represented, as we have them all in bearing in the orchard. We have spared neither money or pains in selecting the best bearers and those most adapted to the markets, and to exclude all others from our list.—Will be sold at the very low price of

\$50 Per Thousand at the Nursery.

Address the subscribers at Cecilton, Cecil county, Md.

Bendersville, Adams Co., Pa.

NEW BRICK MACHINE.

For tempered clay—common labor only required—
worked by one man—makes 500 an hour, \$110—
by horse, 800 an hour. \$300—1,200 an hour,
\$400—by steam, 2,000 an hour, \$500—
3,000 an hour, \$700.

DRYING TUNNEL

For drying in twenty-four hours Bricks, Fruit, Vegetables, Broom Corn, Lumber, Pea-nuts. Bricks moulded one day go into the kiln the next all the year.

HOT BLAST KILN, by which one-half the fuel is saved—220,000 bricks have been burned with 53 cords.

REVOLVING SEPARATOR, which pulverizes the clay, and frees it from stone. A piece of limestone, the size of an acorn, will burst a brick.

For further particulars, in a pamphlet (eighth edition, enlarged) giving full instructions on brick setting and burning, with wood or coal, address, sending 25 cents,

FRANCIS H. SMITH,
P. O. Box 556.

GET THE BEST

WEBSTER'S DICTIONARY
UNABRIDGED
NEW ILLUSTRATED
OVER 3000 FINE ENGRAVINGS.

10,000 Words and Meanings not in other Dictionaries. A necessity to every intelligent family, student, teacher and professional man. What Library is complete without the best English Dictionary?

"Superior, in most respects, to any other English Dictionary known to me?"—Hon. George P. Marsh.

"THE NEW WEBSTER is glorious—it is perfect—it distances and defies competition—it leaves nothing to be desired."—J. H. Raymond, LL. D., *Pres. of Vassar College.*

"All young persons should have a standard Dictionary at their elbows. And while you are about it GET THE BEST; that Dictionary is NOAH WEBSTER'S—the great work unabridged. If you are too poor, save the amount from off your back to put it into your head."

Phrenological Journal.

"Every farmer should give his sons two or three square rods of ground, well prepared, with the avails of which they may buy it. Every mechanic should put a receiving box in some conspicuous place in the house to catch the stray pennies for the like purpose. Lay it upon your table by the side of the Bible; it is a better expounder than many which claim to be expounders. It is a great labor-saver; it has saved us time enough in one year's use to pay for itself; and that must be deemed good property which will clear itself once a year. If you have any doubt about the precise meaning of the word *clear*, in the last sentence, look at Webster's nine definitions of the *r. t.*"—*Massachusetts Life Boat.*

In one vol. of 1,840 Royal Quarto Pages.

Published by G. & C. MERRIAM, Springfield, Mass.
Sold by all Booksellers.
